

**Project Phase 6  
Artificial Intelligence  
Presentation**

Dear Students,

You did a great job by either regenerating or developing an AI application. Please prepare your presentation and your slides (in the form of a PowerPoint file) by following the below criteria:

- **Presentation slides (3.5 points)**
  - Title, outline, references, and description yourself **(0.5 points)**
  - Research question **(0.5 points)**
  - Exploring data **(0.5 points)**
  - Modeling data **(0.5 points)**
  - Optimization **(0.5 points)**
  - Evaluating your model **(0.5 points)**
  - Overviewing your GitHub repository **(0.5 points)**
- **Important features in your presentation slides (0.5 points)**
  - Slides number **(0.25 points)**
  - Pictures quality and readability of their captions **(0.25 points)**
- **Oral presentations (1 point)**
  - Time management **(0.25 point)**: each team has 15 minutes for presentation
  - Describing the sections of your project in the Jupyter Notebook **(0.75 points)**

**Please upload your presentation file and Jupyter Notebook in both Blackboard and GitHub before the class start.**

**Questions and problem handling:**

You can ask any questions regarding the project. You can ask your questions during class, or you can email your questions to your instructor [sadeghir@sacredheart.edu](mailto:sadeghir@sacredheart.edu).
